Marimor Industries, Inc. to Hold Ribbon Cutting for Secure Scan

LIMA, OHIO – Marimor Industries, Inc. will hold a ribbon cutting on April 21, 2009 for its new digital imaging program, Secure Scan. The event will be held at Marimor Industries, Inc., 2450 Ada Rd. Lima, Oh, at 1:00 p.m. and is free and open to the public.

Driven by the success of its document destruction division, Secure Shred, Marimor Industries developed Secure Scan as an opportunity to provide new, technology based vocational experiences for their consumers. “When completely up-and-running Secure Scan will provide clients with hands on training in scanning, file creation, archiving and data entry,” said Dennis Powell, Industrial Systems Manager at Marimor Industries, Inc. “These skills will help open up new opportunities for individuals, not only at Marimor Industries, but in the community, as well.”

The new imaging lab, Secure Scan, will offer businesses and individuals in Allen County and the surrounding areas an effective alternative to their document and records management systems. This service will allow for documents and records to be scanned and saved in an electronic format of the customer’s choosing. Secure Scan’s benefits also include text search capabilities, security, editing and much more.

Upon completion of the conversion process, customers may also choose to partner with Secure Shred for the destruction of the documents in a safe, confidential and cost effective manner.
